

PAULOWNIA

Paulownia offers a light weight natural timber option. that has a high strength to weight ratio and is inherently warp- resistant. Alltone offers the Paulownia range in a beautiful water based satin finish in five standard colours. Paulownia is versatile for its ability to be made in many shapes and forms therefore is perfect for any shutter application.

Colours

Water Based Satin Finish

Painted

**Actual product colour may vary from the images shown as computer screens and printers have varying colour settings*

Application
